Sponsored by Montana

WRITINGS IN ARCHITECTURAL EDUCATION

Climate Change: Sustainability/ Responsibility

The EAAE Prize aims to stimulate original writing on the subject of architectural education in order to improve the quality of architectural teaching in Europe. Organized bi-annually the competition focuses public attention on outstanding written work selected by an international jury.

The first EAAE Prize was awarded in 1991.

The EAAE invites all EAAE member schools of architecture and all individual members of EAAE to participate in the EAAE Prize 2009-2010.

In the Fall of 2009 all member schools have received a poster of the competition. The material and general conditions of the competition are also be available on the EAAE homepage: <http://www.eaae.be>

Ongoing research is documenting the climatical changes and demonstrates that human activities contribute significantly to this process. The different types of climate changes form one of the most complex themes in the current worldwide debate and these challenges have implications reaching far into the future.

How is this challenge addressed in architectural education?

Are the challenges of climate change included in the basic knowledge delivered through the curriculum, are they addressed in the themes for student projects, or are they addressed through individual research about climate and architecture?

Which new educational initiatives do you find important?

23-26 Jun 2010
