6. President's report from the EAAE Council for the previous year and outlook

Program of activities, initiatives, and actions

- Strengthening existing initiatives by consolidating and expanding their agendas
- Enhancing Quality Assurance and Management
- Reaching out to the Community also by improving communications
- «Looking Around» Strengthening and expanding the existing network with institutional partners (educational and professional) and other high-potentials

Research Academy

Fostering/supporting doctorates and the build-up of knowledge databases; intensifying efforts for EU grants and programs.

Education Academy

The first three-year strategical themes will find an intermediate conclusion with the "Position Paper on Architectural Education". Further fields to explore (new projects on Digitalization/e-Learning, Continuing Education (LLL), and Joint Degrees).

YTAA

The results of the first «Young Talent Architecture Award» with Fundaciò Mies van der Rohe and ACE have been announced.

Horizon 2020: 6 years, €70 Billion

The recognition of architectural and urban research is one of the most important challenges for the EAAE. The main research areas of the Horizon 2020 Call hardly mention architecture and urbanism among the relevant disciplines and fields for funding. There is a lot waiting to be done for the advocacy of research.

Enhancing Quality Assurance and Management

EAAE Annual Conference 2019 will be hosted by University of Zagreb. The tentative topic "Hidden School" targets addressing issues of ensuring the quality of architectural education.

EAAE website

The EAAE web attracts an increasing number of visitors from all over the world. Most traffic is generated by the full members section, the opportunities page, the webpage about the general assembly, the page of the Education Academy and the EAAE events. The President stresses that communication is very important for the EAAE and encourages the member schools to frequently update their school information.

Our partner organizations

The EAAE has collaborations with selected partner organizations (ACE, ACSA, ARCC, ELIA), whose representatives are present at the conference in Porto. MoUs with ACSA, ARCC and ELIA have been signed and several joint projects are in planning.

Sponsorships

The main sponsor of the conference 2018 is VELUX. Opportunities for future sponsorship are being discussed.

7. Election of council members (headed by EAAE vice-president Ilaria Valente)

The Council members are appointed by the General Assembly for a period of three years. The Council should be renewed each year by gradual rotation with intentionally one third of the Council members leaving each year. The mandate of Council member can only be renewed immediately once for a second three-year period, upon reelection by the General Assembly. (§ 16 EAAE Statutes)

Composition of the current Council:

- Oya Atalay Franck (President)
- Ilaria Valente (Vice President)
- Koenraad Van Cleempoel (Treasurer)
- Nur Çaglar > leaving
- Manuel Couceiro da Costa > leaving
- Hugo Dworzak
- Karl Otto Ellefsen (former President) > leaving
- Harriet Harriss
- Dalibor Hlaváček > up for re-election
- Susanne Komossa > leaving
- Sally Stewart > up for re-election

Candidates

The seven candidates listed below (in alphabetical order) have responded to the call for new Council members that was sent out to all EAAE members prior to the General Assembly. All candidates briefly present themselves to the General Assembly.

	country	school

8.4 Membership fee from 2020 onwards

The current membership situation is as follows:

Up to 27.08.2018 116 schools/institutions/individuals have paid their 2018 membership fee.

108 Full school memberships (28 countries represented)

AL(1), BE(6), BG(1), CH(6), CY(2), CZ(2), DE(4), DK(2), EE(1), ES(11), FI(2), FR(5), GB(5), HR(1), IE(1), IS(1), IT(14), LI(1), LT(1), LV(1), ME(1), NL(7), NO(3), PL(5), PT(5), RO(2), RS(1), SE(3), SK(1), TR(12)

- 4 Associated institutional memberships, 4 Associated individual memberships

A first commentary to the question of why the membership fees should be raised: The activities of the EAAE have grown considerably in the last four years, yet the income has not changed. The income depends

solely on the membership fees that have not been raised since 2004. Some important aspects to be considered:

- The website as main channel of communication, has to be continuously updated technically and content wise and must be secure. This requires human resources and ICT costs.
- The demands of publishing the events and calls from member schools are growing, which also means more work for the communication.
- Especially the academies need support (registration, communication, publication and archiving) and planning security for their workshops.
- The annual conference and further regular conferences with our partners also need a minimum of budget and security, even though these events should be self-financing.
- At the moment, we do not have the capacity to give support to the coordination of Erasmus+ Projects.
- EAAE has reached the level to start new projects:
 - o A teachers' award, as well as a PhD award to be conceptualized and implemented.
 - Sector study (analogue to the sector study of ACE) to know how our graduates are participating in "afterlife".
 - Need to develop the communication, especially social media, also needs human resources and time.
 - Proceedings of the conferences, workshops have to be prepared open access and digital publication has to be coordinated.
 - The coordination with our partner institutes and other networks needs to be part of the work capacity.
 - Advocacy and lobby work has to be coordinated, continuously prepared and performed.

Proposition:

Membership fees as of 2020: Raise the fee for regular, associated and individual members.

- Step 1 Regular members' fee €750 (2019 = €500)
- Step 2 discussions for the other categories, such as associated and individual members' fees

Goal: TOTAL IN 2020: €100.000

Comments from the member schools:

- The concern is raised that a 50% raise in the fee may be too much for some countries and that the EAAE risks losing the schools from those countries as members.
- A more gradual increase could be easier to justify in the member schools' budgets.
- The suggestion is made that EAAE could consider a variable contribution to account for the great diversity between the member schools. Erasmus+ has an established rate to divide countries. This division could be used to stratify schools and fees.
- The willingness of schools to pay the increased fee will depend on the benefits they receive from their membership. It could be valuable to distribute a questionnaire among the member schools to get a good idea of the topics the schools are really concerned about (bottom-up approach). Such a questionnaire, however, requires capacity that the EAAE currently doesn't have.
- It is stressed again that the raise in the fee is needed to keep the EAAE at the same level of
 activities without using all reserves. The aim of the raise is to remain a livable organization. At

present, many bottom-up initiatives are taking place (e.g., in the context of the academies) reflecting the interests of actual member schools.

- The question is raised whether other ways to generate income than increasing the membership
 fees have been considered. The President informs that several models have been discussed in the
 council, for instance to seek for sponsorships.
- It is argued that the European schools need a strong EAAE to cope with future challenges. It is
 important to take care of the organization to keep it profitable and make it powerful.

Conclusion: The process of raising the membership fees has started now and will be taken up by the new Council, with new ideas and visions. It is stressed that the GA has the final say in the decision that will be made at next year's meeting.
