**RE: Candidacy to the EAAE Council 2022.**

With this letter of endorsement and support I, Hildigunnur Sverrisdóttir, Head of the Department of Architecture at the Iceland University of the Arts, declare the support of the school to Massimo Santanicchia's Candidacy to the EAAE 2022.

Massimo has been working in our school since 2013 and since 2017 has assumed the role of program director. He has therefore matured experience on matters of education here in Iceland and has been an active member of the EAAE by participating at both the general assemblies and as an on-going member of the Platform of EAAE's Education Academy. Massimo's PhD to be presented in the Autumn of 2022 reflects his interest and love for architectural education.

I therefore support Massimo's candidacy and I believe his contribution will further enrich the EAAE Council.

Sincerely,

Hildigunnur Sverrisdóttir  
Head of Department of Architecture  
Iceland University of the Arts
