

Jörg Schröder is full professor of urbanism and Chair for Territorial Design and Urban Planning at Leibniz University Hannover LUH, since 2012. He is Dean for Research of the Faculty of Architecture and Landscape, directing the PhD college in Architecture of Territories, and in the board for study programmes in architecture and urban design. Currently, he is a member of the working group on research evaluation of the Architecture Units in the TU9 German Technical Universities. He graduated in 1998 with Technische Universität München and has been assistant professor at TUM, as a guest lecturer and for teaching and research projects he cooperates with several universities in Europe and Latin America.

As an architect and urban planner his focus is on urbanism and architecture for sustainable transition and territorial innovation, with a focus on design research, emerging creative habitats, and circular dynamics. In particular, he is working on interactions with infrastructure design, sustainable development, and circular economy. In a territorial perspective, his interest is in an extended metropolitan dimension as well as in a broad range of peripheries. Current research projects address innovative dynamics of space-society interactions for innovation processes towards sustainability and climate-neutrality, social and economic innovation, and cultural change.

He is coordinator of the Circular Design Innovation Alliance, funded 2023–26 by the European Union and has been coordinator of the research projects Creative Food Cycles (EU Creative Europe Programme), Cosmopolitan Habitat (DAAD German Academic Exchange Service), Creative Heritage (Volkswagen Foundation), and contributed to several national and European research projects, e. g. Alpine Building Culture (EU Alpine Space Programme) and Regiobranding (BMBF German Ministry of Education and Research). He is regularly directing and organising international conferences, workshops and summer schools. Publications include the books Circular Design (2023, with Jovis, Berlin), Cosmopolitan Habitat (2021), Creative Food Cycles (2020), Territories (2017).

Nationality: German
Languages: German, English, Italian

Architect and Urban Planner in Munich

Academic Curriculum:

since 2017: Dean for Research of the Faculty of Architecture and Landscape Sciences, LUH
since 2014: Director of the Institute of Urban Design and Planning, LUH
since 2012: Full professor of Urbanism and Chair for Territorial Design and Urban Planning, LUH
Has been guest lecturer at UNAM México, University of Innsbruck, University Ion Mincu Bucarest, University of Palermo, University of Bologna
2010-12: Research group director, TUM
2008-10: Assistant professor, TUM
2001-08: Researcher and lecturer, Institute of Urban Design and Landscape, TUM
1998: Master in Architecture and Urban Planning, TUM
1992-98: Architecture and Urban Planning Studies, Technische Universität München TUM

Memberships and Awards:

Member of the working group on research evaluation of the Architecture Units in the TU9 German Technical Universities

Member of the board of studies in Architecture and Urban Design, member of the PhD admission board for Architecture and Urban Design, LUH

Member of the selection boards of LUH for the full professorships in Architectural Theory (2022), Urban Development (2018), Architectural and Urban History (2017), Urban Design (2014), and Regional Planning (2013); external reviewer for selection boards at KIT Karlsruhe Institute of Technology and at University of Innsbruck

Has been member of PhD exam commissions at the University Federico II of Naples, University of Palermo, University of Genoa, and University of Trento; reviewer for PhD exam commissions at TUM Technische Universität München; member of habilitation exam commission at TU Vienna

Member of the editorial committee for the n-Cities Collection, Actar Publisher, Barcelona-New York; for ADDOC journal, Genoa University Press, Genoa; and for ListLab publisher, Trento-Barcelona

Research and Teaching Profile:

Research and teaching in territorial design and urban planning, urban design, infrastructure design, sustainable development, circular economy. Main focus on space-society interactions in sustainable urban transformation, role of design and creativity in urban visioning and for urban and territorial innovation processes.

Director the *Doctoral College "Architecture of Territories"* in urban design, urban and territorial planning; Co-director of the interdisciplinary Doctoral College "City and Landscape", urban design and planning with landscape architecture; PhD supervision (5 ongoing PhD theses)

Teaching in the *programme B.Sc. Architecture*, together with the assistant professors at the Chair: Introduction in urban design (6 ECTS), Urban design project (9 ECTS), Urban design and planning seminar (elective, 5 ECTS), Bachelor theses in urban design (12 ECTS)

Teaching in the *programme M.Sc. Architecture and Urban Design*, together with the assistant professors at the Chair: Territorial design and urban planning studio project (12 ECTS), Territorial design and urban planning seminar (5 ECTS), Master theses in urban design and planning (20 ECTS)

Research Projects:

CIRCULAR DESIGN: 2023-26 funded as Innovation Alliance by the Erasmus+ Programme of European Union; as leadpartner, in collaboration with IAAC Institute of Advanced Architecture Barcelona, CNR Italian Research Council, Tallinn Creative Incubator, Architektūros Fondas Vilnius, ACE Architects' Council of Europe, Materiom Ltd., Ellen MacArthur Foundation, and others (overall grant 1.5 mio)

RESSOURCE ARCHITEKTUR - Urban sustainability, housing, and resources: 2022 funded by the Chamber of Architects of Lower Saxony, the architecture associations BDA, BDIA, BDLA, BDB, and the Network Building Culture of Lower Saxony; as leadpartner, in collaboration with the University of Applied Sciences Hannover

MEDWAYS: 2020-22 funded by the Italian National Academy of Sciences Accademia dei Lincei; as research partner with the contribution "Circular Territories"

COSMOPOLITAN HABITAT: 2020 funded by DAAD University Dialogue Southern Europe, financed by the German Federal Ministry of Foreign Affairs; as leadpartner, in collaboration with Dipartimento d'Architettura, University of Palermo

CREATIVE FOOD CYCLES: 2018–20 funded by the Creative Europe Programme of European Union; as leadpartner (overall grant 330,000)

REGIOBRANDING: 2014-19 funded by the German Federal Ministry of Education and Research BMBF; as scientific partner (overall grant 1.3 mio)

RURBANANCE. Rural-Urban inclusive governance strategies and tools for sustainable development of transforming Alpine territories: 2012-15 funded by the Alpine Space Programme of European Union; as scientific partner; leadpartner: Lombardy Region (overall grant 2.1 mio)

CREATIVE HERITAGE. International Platform for Regenerative Cities, Resilience and Territorial Innovation: 2017, funded by Volkswagen Foundation

DYNAMICS OF PERIPHERY. Emerging Creative and Resilient Habitats: 2017-18 funded by DAAD University Dialogue Southern Europe, financed by the German Federal Ministry of Foreign Affairs; as leadpartner, in collaboration with Dipartimento d'Architettura, University of Palermo

ROMA 20-25. Concepts for the Metropolitan City: 2015-16 funded by City of Rome and MAXXI Museum of the Arts of 21. Century in Rome; as international university partner

AlpBC ALPINE BUILDING CULTURE: Capitalising knowledge on Alpine Building Culture by performing regional smart planning and consultancy strategies for sustainable development and closed loop economies in the Alpine Space: 2012-15, funded by the Alpine Space Programme of European Union; as scientific partner; leadpartner: Chamber of Crafts for Upper Bavaria (overall grant 2.4 mio)
