

# **EAAE Council Candidates 2023**

## **Application DAG BOUTSEN, Faculty of Architecture KU Leuven**

I've always had a particular interest in bridging the societal position of architecture, the research setting of the discipline of architecture, the European context full practical problematic differences, etc.. through interventions, debates, talks and organization of common grounds.

The Dean's Summit in Brussels, the ACE-EAAE conference on 'upskilling', the Architecture's Afterlife project were some of the examples where different matters came together. Involving the right stakeholders is what drives me.

I would like to continue these types of engagements and would be honoured to be able to continue this type of work.

Working together with Céline Monbailliu (EAAE Secretariat) in Brussels and Ghent is of course also a pleasure; continuation here seems very much appropriate.

Dag Boutsen
